

GLR-1510B-PS

Automatic Pocket Setter
Machine(Brother Head)

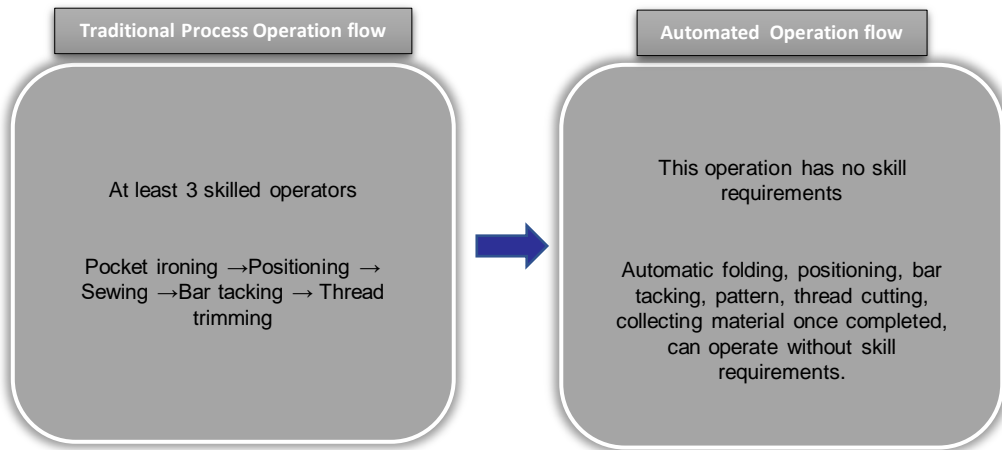

Range of application

Product Features

- 1. Innovative Cold Folding Mechanism:** Features an automatic cold folding and non-ironing mechanism, eliminating the need for manual pocket folding and ironing. Ensures high-quality sewing with ease.
- 2. Quick Mold Change Design:** The quick mold change mechanism reduces adjustment time, increasing efficiency and productivity.
- 3. Advanced Sewing Machine Head:** Equipped with the Brother BAS-31XH pattern machine head for simplified and fast pattern editing, resulting in more precise and attractive stitches.
- 4. Full Servo Control System:** Offers accurate control, completing the pocket process in a single operation with no special skills required.
- 5. Automatic Collecting System:** Ensures neat collection of finished products, reducing labor requirements.

Technical Parameters

Specification	Details
Machine Model	GLR-1510B-PS
Machine Head	BAS-31XH-05
Maximum Sewing Speed	2800rpm
Stitch	Single Lockstitch
Hook Type	Shuttle Hook
Needle Type	DP × 17 (#16~#21)
Stitch Distance	0.05~12.7mm
Mold Change Mode	Fast Change Mold (Pneumatic)
Working Voltage	AC 220V
Working Air Pressure	0.5Mpa / 1.8L/min
Machine Configuration	Redundancy Device (Standard)
Optional Device	Pad Attachment Device
External Dimensions	1780 × 1530 × 1760mm (L × W × H)
Net/Gross Weight	530kg
