

GLR-438GT-BF

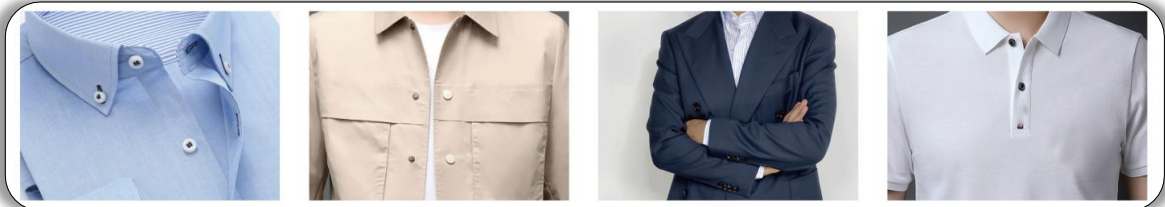

Automatic Button Feeding Machine

Range of application

Ideal for continuous, high-quality sewing of various types of flat buttons for clothing.

- Button Outer Diameter Range: 8mm–30mm
- Button Sewing Area: 6.4mm x 6.4mm

Product Features

1. The button attaching machine features an integrated structure design, offering low power consumption, high efficiency, and high-speed performance.
2. Equipped with a high-quality vibrating tray feeding mechanism, it ensures accurate feeding, supports a wide range of applications, and provides an easy-to-operate system.
3. The machine includes a programmable 7-inch color touch screen, allowing for simple setup of button attaching patterns and parameters.
