GLORIOUS
Sew the Story, Be the Glory

GLR-AT6112-MD
Full Automatic Cap Strap Machine

Range of application

Product Features

1. **Fully Automated Process:**
   The entire process, including ironing, feeding, cutting, folding, sewing, and collecting, is fully automated, resulting in significantly higher production efficiency.
2. **Double-Station Automation Structure:**
   Features a double-station design that boosts efficiency by an additional 60%.
3. **Seamless Integration:**
   The automation control system is perfectly synchronized with the pattern machine operating system, ensuring consistent and stable quality.
4. **Ease of Operation:**
   Requires no skilled labor—one operator can easily manage multiple machines, leading to a substantial increase in productivity.

Range of Application:
Ideal for the automated sewing process of baseball cap straps.
