

GLR-3020GT-PS/KG

Kangaroo Pocket Machine

Range of application

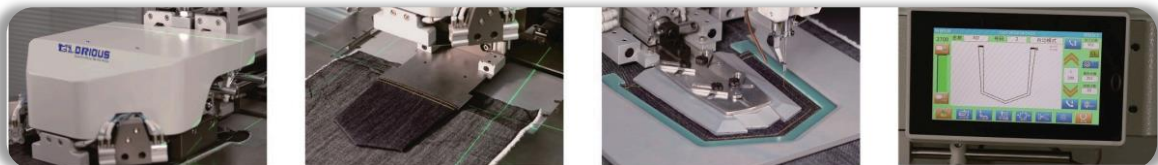

Product Features

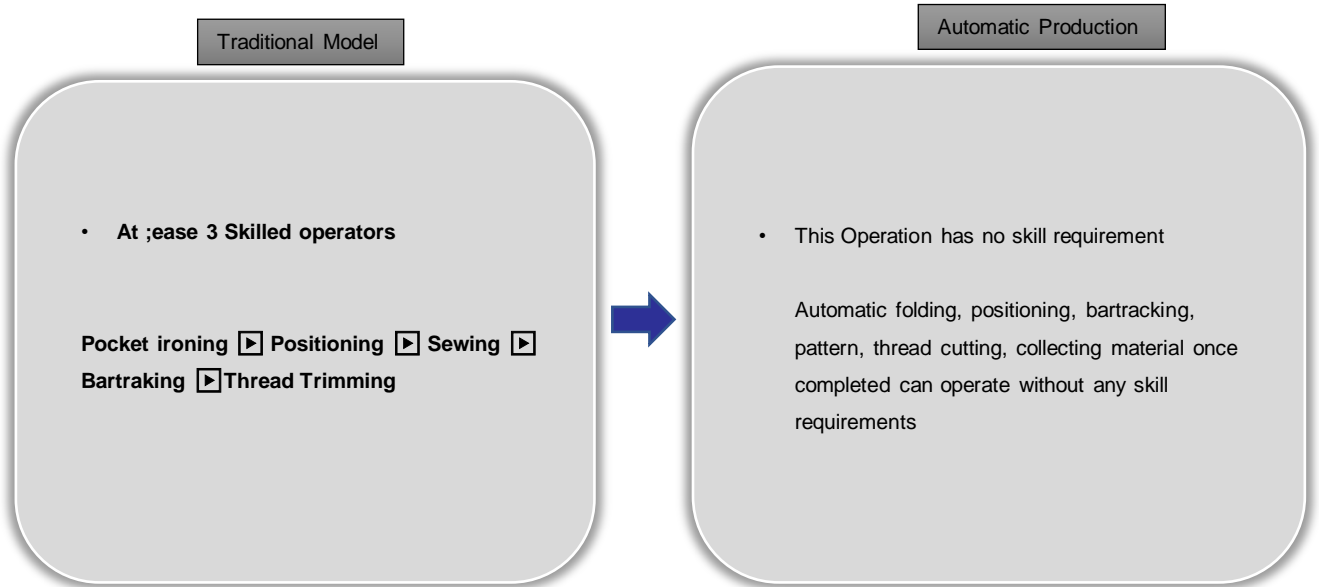

- The innovative automatic cold folding and non-ironing mechanism eliminates the need for traditional pocket folding and ironing processes, enabling high-quality sewing with ease.
- A quick mold-change mechanism minimizes mold change and adjustment time, significantly improving work efficiency.
- Equipped with the 3020 pattern sewing machine head, offering simple and fast pattern program editing, while producing more precise and beautiful stitches.
- Full servo control system ensures accurate control, allowing completion of pocket processes in a single step without requiring advanced operating skills.
- An automatic collection system neatly collects finished pieces, saving time and reducing labor costs.

Scope of Application:

Designed for jeans and other external decorative pockets requiring advanced pocket sewing technology.

Specification Range

Technical Parameters

Model	GLR – 3020GT-PS/KG
Machine Head	GLR 3020
Maximum Sewing Speed	2800 rpm
Stitch	Single Lockstitch
Hook Type	Shuttle Hook
Needle Type	DP X 17 (#16-#21)
Stitch Distance	0.05-12.7mm
Mold Change Mode	Fast Change Mold
Working Voltage	AC220V
Working Air Pressure	0.5Mps 1.8L/min
