GK35500 SERIES

DIRECT DRIVE FLAT BED CHAINSTITCH SEWING MACHINE

- Use Horizontal type "electric direct driving type" presser foot lifter which are more sensitive and silent.
- Use direct drive servo motor for interlock machine which are easy installation, sensitive, silence and offer the needle position more precisely. the machine isn't swung by machine's start and stop.
- Applicable to medium-heavy weight fabric for general seaming and hemming, For example, all kinds of underwear, sportswear for covering and hemming...etc.
- looper thread take-up put on the front of body, to clean the winding and adjustment easily. The flexible thread take-up eyelet holder, to offer the looper thread tension and release more details adjustment.
- Only change the gauge set & attachment which could use the binder of flat-bed machine to offer standard tape attaching, "Covering, Hemming & Taping", three basic functions in one m/c.
